This instruction tailors guidance on munitions items under shop-stock control. This Instruction implements AFRD 21-2, *Non-nuclear and Nuclear Munitions* and AFI 21-202, *Combat Ammunition System Procedures*. The 457 FS Flying Squadron Maintenance and 301st Maintenance Superintendents will ensure compliance with this instruction. This instruction is applicable to all maintenance activities of the 301st Fighter Wing.

**1. Shop-Stock.** The following munitions items have been determined to be shop-stock control:

- 1.1. Arming wire.
- 1.2. Swivel and links.
- 1.3. Swivel and loops.
- 1.4. Ferrules.
- 1.5. Safety clips.

**2. Use.** The use of shop-stock items will be in accordance with the applicable Technical Orders.

**3. Storage.** The storage of shop-stock items will be kept in a secured area (i.e. lockable cabinet) with limited access.

**4. Inventory.** Inventory of shop-stock items will be accomplished by the shop supervisor on a quarterly basis in conjunction with the Quarterly Munitions Custody Account Inventory.

**5. Issues.** Munitions items as shop-stock, will be issued to Munitions Flight and Load Training supply points only. Issues will be in quantity unit pack unless otherwise requested by the shop supervisor.

**6. Replenishments.** All replenishments of shop-stock will be requested on AF Form 2005, **Issue/Turn-In Request**, (in triplicate) 5 workdays prior to the required date.

**7. Turn-ins.** All shop-stock items that become unserviceable will be turned in to the Munitions Inspection Section. Shop supervisors must call the inspection section 2 days prior to turning in the items. Items will be turned in using Found on Base (FOB) procedures.

**8. Foreign Object Damage (FOD).** All personnel must observe strict compliance with the units FOD procedures.

**9. Responsibility.** Shop supervisors authorized to receive and maintain shop-stock items are responsible for their control, use, and disposition.
